Evaluation criteria in relation to particular learning outcomes	
--	--

Learning outcome	For the assessment 2	For the assessment 3	For the assessment 4	For the assessment 5
K_W01	Student does not have knowledge about the place and role of tax system in the economy. He/she does not know relations between Polish tax system and systems of the EU countries.	Student has basic knowledge about the place and role of tax system in economy. He or she knows basic relations between Polish tax system and systems of the EU countries.	The student has knowledge about the place and role of the tax system in the economy. It knows relations between Polish tax system and systems of the EU countries.	Students have advanced knowledge about the place and role of the tax system in the economy. He or she knows relations between Polish tax system and systems of the EU countries.
K_W02	The student is not familiar with the terminology of the tax system and has no knowledge of the impact of taxation on business.	The student is familiar with the basic terminology of the tax system and has basic knowledge of the impact of taxation on business.	The student is familiar with the terminology of the tax system and has knowledge of the impact of taxation on business.	The student is familiar with advanced terminology of the tax system and has knowledge of the impact of taxation on business.
K_U03	The student does not know the general rules for calculating the amount of taxes paid by enterprises.	The student knows the basic principles of calculating the amount of taxes paid by enterprises.	The student is familiar with the general principles of calculating the amount of taxes paid by businesses.	The student knows the rules for calculating the amount of taxes paid by businesses.
K_U04	The student is not able to use in practice the knowledge of the tax system, including the inability to indicate optimal tax solutions for a given business entity.	Students will be able to apply in practice the knowledge of the tax system at a basic level, including the ability to identify basic tax solutions for a given business entity.	The student is able to use in practice the knowledge of the tax system on the intermediate level, including the ability to identify optimal tax solutions for a given business entity.	Student is able to use in practice the knowledge of the tax system, including the ability to identify optimal tax solutions for a given business entity.
K_U05	The student is not able to obtain information on the current state and future changes in the tax system.	Student is able to obtain basic information on the current status and future changes in the tax system.	Students are able to obtain information on the current status and future changes of the tax system at an intermediate level.	Student is able to obtain information on the current status and future changes in the tax system.
K_U06	The student is not aware of the scope of his/her knowledge and skills, does not understand and does not realise the need for lifelong learning, does not cooperate in this field with other persons, does not inspire them to improve their qualifications.	The student is aware of the scope of his/her knowledge and skills, understands and tries to realise the need for lifelong learning.	The student is aware of the scope of his/her knowledge and skills, understands and realises the need for lifelong learning.	The student is aware of the scope of his/her knowledge and skills, understands and realises the need for lifelong learning, cooperating in this field with other persons, inspiring them to raise their qualifications.
K_K07	The student is not able to organize work in a group, taking various roles in it.	The student is able to organize group work at a basic level.	The student is able to organise group work.	The student is able to organise group work and take on various roles in it.
K_K08	The student is not able to correctly identify priorities for the implementation of the assigned tasks.	The student is able to determine priorities for the implementation of assigned tasks at a basic level.	The student is able to determine priorities in order to accomplish assigned tasks at the intermediate level.	The student is able to correctly identify priorities in order to accomplish the set tasks.
